BABY PI

WHITEPAPER

BABY PI

DISCLAIMER

BABYPI is a community driven decentralized cryptocurrency existing outside the control of governments and central authorities.

We utilize open-source smart contracts with permanent protection. In legal terms, is considered a utility token and by any means is not a regulated or security token. Moreover, it is not an asset backed by stablecoin or fiat currency. Trading cryptocurrencies carries a high level of risk, so we kindly ask you to carefully examine all the administrative, regulatory, and legal parameters prior to reading this WhitePaper and/or transacting with \$BABYPI.

By proceeding, the User acknowledges and accepts that there is a possibility of a loss of some or all of an initial investment and thereafter rejects any claim against any team member of the \$BABYPI community.

BABY PI

INTRODUCTION

A Web3 application project called Baby PI Network was created with the idea of unwinding while making money. By simply purchasing and saving Baby PI Network tokens, our application seeks to benefit every user every day. If you want to increase your profit, you can refer new users to the application.

We purposefully don't divulge our identify since we don't want to attract the ire of those who don't like us. Baby PI Network will eventually grow to be a significant community token comparable to the Baby Doge Token.
